Why CUK KLEC?

Located at the hub of culture and transportation

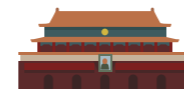

- At a midpoint between the Incheon International Airport and Seoul city
- Perfect location to focus on studying in a quiet environment
- Language study in Bucheon, the city of cultural content with Bucheon International Fantastic Film Festival (BIFAN), Bucheon International Animation Festival (BIAF), and Bucheon International Comics Festival (BICF)

Distinctive class curriculum at the language school

- Dynamic Korean language classes and Korean culture experiencing programs
- All lecturers hold a master's or doctorate degree in Korean language education

Student Comments

DONG FUJIA / China

The best part about the school was its location. The school is in a residential area, so it wasn't noisy and I felt like I've become Korean.

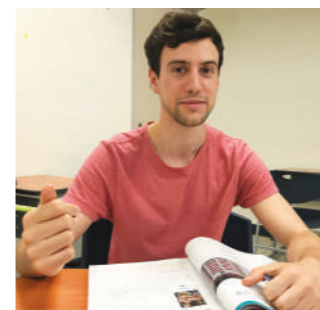

I loved how the classes are small that we felt like a family. The teachers were really attentive to each student, which helped us focus on learning. Especially, I did not speak a word of Korean, but the teachers helped me and taught me with all their heart so I could eventually catch up. My favorite place in the campus is the university library. Whenever I have lots of assignments to do, I usually go to the library with my classmates or buddies to study and spend time there.

DE STEFANO FEDERICO / Italia

I like the environment the most where I can focus on studying.

Instead of the hustle-bustle of the downtown Seoul, I chose the CUK campus thinking it's not too far from Seoul but still close to the nature. The environment really helped me focus on studying during my 1-year long study abroad, and I have grown healthier now. When I go back to Italy, I plan on studying language and economics in the graduate school. I think the Korean language I learned at the CUK KLEC will be really helpful.

Course

Curriculum by stage

Stage 1	<ul style="list-style-type: none"> Practice basic speaking and listening Learn the most basic Korean language required for daily life
